**To the Christian, life is a gift...** Not all pregnancies may be "planned," but we know how pregnancies happen... pregnancy almost invariably comes from a willed, consensual act, an act, we might say, of a woman controlling her own body. Abortions performed because of rape or incest account for less than 2 percent of all abortions... In each and every case, the child in the womb is a life; and if the mother does not want [the child]... There are plenty of parents willing to adopt that child...
